Preface

The "International Standing Working Group for the History of Early Childhood Education (ECE)" made it their business to develop and support research in the field of early childhood education.

The Working Group is engaged within the "International Standing Conference for the History of Education (ISCHE)", founded in 1979.

The 4th annual conference of the ISCHE was held in Budapest (Hungary) in 1982 with the topic "The history of preschool education and its relation to the history of education". The results of this conference were published in two volumes and also partly in the two volumes of "Historia Infantiae".

The important success of this conference made Prof. Otto Vág, Budapest to found the "Standing Working Group for the History of Early Childhood Education (ECE) within the ISCHE".

The first meeting of the ECE was in Bamberg (FRG) in 1984. It was followed by meetings in Empoli (Italy) and Paris (France). The following annual meetings were held in connection with the annual conferences of the ISCHE in Pécs (Hungary), Joensuu (Finland), Oslo (Norway), Praha (Czechoslovakia), Zürich (Switzerland) and Barcelona (Spain).

The 10th meeting of the ECE will be held in Sopron (Hungary) in 1993, 1st - 3rd september, at the "Benedek Elek" Preschool Teacher Training College.

At this 10th meeting we are going to present this list of all the contributions to the history of early childhood, which have been discussed since the conference in Budapest.

We hope to give with this index a summary of the accomplished work to all members of the ECE and to create a basis for the upcoming work of the ECE and its members.
